AUTO GATES

Domestic Gate Automation

SUPPLIED & INSTALLED PRICES WITH EXISTING GATES

(Last price revision November 2007)

ALL MOTORS

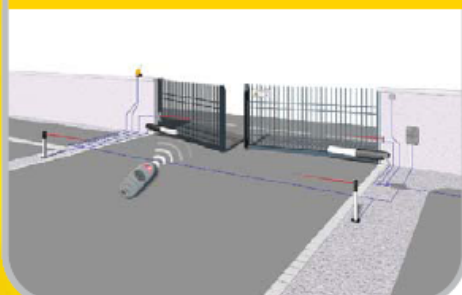

- Open Gates up to 110°
- Are Self-Locking
- Have Key Release after Power Failure
- Used for Single & Double Leaf Gates
- Have Full Vehicle Protection Features
- Need 13 AMP 230 VOLT Supply to one side of Gate
- Above & Underground Gate Systems available
- Usable System may depend on Site Conditions
- Prices do NOT include Cost of Gates (see separate Flysheets)

24 VOLT MOTOR ADVANTAGES

- More openings / hour for high usage
- Obstacle Detection for Human & Animal Protection
- Gates Slow Down on Opening & Closing with less Noise & Wear
- Stops Gate Opening onto a Parked Vehicle behind Gate
- Battery Back-Up available to Open Gates on Power Failure

All types of automation available in 24 & 240 VOLT forms

RAM DRIVE GATE AUTOMATION SYSTEM

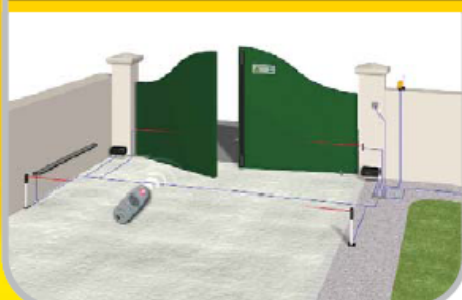

ADVANTAGES:

Above-Ground RAM Motors

- Most Cost Effective System
- Ideal for use with Five Bar Gates
- For Gate Leaves up to 4m wide

ARTICULATED ARM GATE AUTOMATION SYSTEM

Above-Ground Articulated Arm Motors

- Ideal for use with Brick Piers
- Neater than RAM Motors
- Cheaper than Underground Automation
- For Gate Leaves up to 3.5m wide

UNDERGROUND GATE AUTOMATION SYSTEM

Underground Motors

- Ground Stop not required
- Offer better Locking Features
- No Visible Motor on Gate
- Easiest to unlock
- Motors more Tamper-Resistant
- Installed with Drainage
- Needs Arms to Open to 140°
- For Gate Leaves < 2.1m wide

Domestic Gate Automation

SUPPLIED & INSTALLED PRICES WITH EXISTING GATES

(Last Price Revision March 2011)

RAM DRIVE GATE AUTOMATION SYSTEM

DOUBLE LEAF SWING GATES

2 no. Ram Operators
1 no. Control Panel
1 no. Radio Receiver
1 no. Radio Antenna
2 no. Radio Key-Ring Hand Transmitters
2 pair of Photocells for Safety

£3500.00 plus VAT Supplied & Installed

Built in anti crush safety , all systems force tested and EN Compliant

POWER SUPPLY TO THE GATEWAY NOT INCLUDED

SINGLE LEAF SWING GATES

1 no. Ram Operator
1 no. Control Panel
1 no. Radio Receiver
1 no. Radio Antenna
2 no. Radio Key-Ring Hand Transmitters
2 pair of Photocells for Safety
1 no. Electric Lock

£3295.00 plus VAT Supplied & Installed

Built in anti crush safety ,all systems force tested and EN Compliant

POWER SUPPLY TO THE GATEWAY NOT INCLUDED

ARTICULATED ARM GATE AUTOMATION SYSTEM

DOUBLE LEAF SWING GATES

2 no. Articulated Arm Operators
1 no. Control Panel
1 no. Radio Receiver
1 no. Radio Antenna
2 no. Radio Key-Ring Hand Transmitters
2 pair of Photocells for Safety

£3675.00 plus VAT Supplied & Installed

Built in anti crush safety , all systems force tested and EN Compliant

POWER SUPPLY TO THE GATEWAY NOT INCLUDED

SINGLE LEAF SWING GATES

1 no. Articulated Arm Operator
1 no. Control Panel
1 no. Radio Receiver
1 no. Radio Antenna
2 no. Radio Key-Ring Hand Transmitters
2 pair of Photocells for Safety
1 no. Electric Lock

£3325.00 plus VAT Supplied & Installed

Built in anti crush safety ,all systems force tested and EN Compliant

POWER SUPPLY TO THE GATEWAY NOT INCLUDED

UNDERGROUND GATE AUTOMATION SYSTEM

DOUBLE LEAF SWING GATES

2 no. Underground Operators
1 no. Control Panel
1 no. Radio Receiver
1 no. Radio Antenna
2 no. Radio Key-Ring Hand Transmitters
2 pair of Photocells for Safety

£3875.00 plus VAT Supplied & Installed

Built in anti crush safety , all systems force tested and EN Compliant

POWER SUPPLY TO THE GATEWAY NOT INCLUDED

SINGLE LEAF SWING GATES

1 no. Underground Operator
1 no. Control Panel
1 no. Radio Receiver
1 no. Radio Antenna
2 no. Radio Key-Ring Hand Transmitters
2 pair of Photocells for Safety
1 no. Electric Lock

£3575.00 plus VAT Supplied & Installed

Built in anti crush safety ,all systems force tested and EN Compliant

POWER SUPPLY TO THE GATEWAY NOT INCLUDED
